- About Us
- **Clinic MDCM** has been serving the NDG Community since 2009 with a mission to provide comprehensive and quality care in a multidisciplinary setting. In recognition of the clinic's commitment to offer extended medical hours to our 40,000+ registered patients, Clinic MDCM was designated a GMF by the Minister of Health in November 2016.
- A Family Medicine Group (GMF) is a team of doctors who work in collaboration with nurses, social workers and other health care professionals to promote the principles of family and community medicine.
- Clinic MDCM opened their second site in the Westmount area in 2022, with the collaboration of the St.Catherine Medical Group family physicians.

Services available to all patients

Pap Clinic

Did you know that getting regular pap tests is the best way to prevent cervical cancer? In fact, the introduction of regular pap tests has led to a major decline in the number of cervical cancer cases and deaths. The Pap Test Clinic at Clinic MDCM is the most convenient way to get your pap test. No referral needed. When? Weekday evenings and weekends – no need to take a day off! With? A female GP. Call us at 514-484-0999 for an appointment or [click here](#). Appointments available at both NDG and Westmount locations.

Contraception Clinic

Your Health, Your Choice. We are dedicated to providing personalized contraception care that fits your unique needs. Our expert team offers a variety of options and support, going beyond prescriptions to include IUD and implant procedures. We help you choose the most effective and convenient solution for your lifestyle, whether it's oral contraceptives, the patch, the ring, or intramuscular injections. From your first consultation to ongoing care, we're here every step of the way, ensuring you feel confident and supported in your choices. Call us at 514-932-6122 for an appointment or [click here](#). Appointments available at our Westmount location.

Services reserved for patients registered to the clinic

Nurse Practitioner

Our Clinic is proud to have four Nurse Practitioners (NPs) contributing to the growth of our GMFs. We have seen a great benefit to patient care since the integration of our Nurse Practitioners. Nurse Practitioners assume responsibility for tasks related to physical assessment, provision of clinical impressions, treatment for short-term acute illness, monitoring patients with stable chronic conditions, order testing and organize referrals.

Nursing Services

Our clinics have nurse clinicians and nurse assistants participating in the care of our patients. Doctors work in collaboration with our nursing team to offer services covering a variety of health problems such as diabetes, hypertension and cholesterol. Nurses also offer counseling and teaching for sexually transmitted infections, contraception and child development (0-5 years old).

Mental Health

In any given year, one in five people in Canada will experience a mental health problem or illness. Our registered patients benefit from our mental health team consisting of social workers that work alongside their family physician.

Nutrition

The nutritionist intervenes on aspects related to nutrition and diet. Their interventions cover promotion, prevention, evaluation, treatment and rehabilitation. The nutritionist aims to maintain, improve or restore nutritional status and health.

Menopause Clinic

Our Menopause Clinic provides specialized care and support for women experiencing perimenopause and menopause. Our multidisciplinary team offers personalized treatment plans to help manage symptoms such as hot flashes, sleep disturbances, mood changes, and hormonal imbalances. We offer a range of treatment options, including Hormone Replacement Therapy (HRT) when appropriate, to support each woman's individual needs. Our goal is to empower women with education, resources, and medical support to navigate this natural life stage with confidence and comfort.

Pharmacist

Our team of GMF pharmacists assesses and ensures the correct use of medication. Our patients benefit from the interaction with pharmacists and support from our professionals in drug treatment. The pharmacist practicing in an interprofessional team can have a favorable impact on the use of drugs (prescription, dosage adjustment, compliance, etc.).

Clinic MDCM has been serving the NDG Community since 2009 with a mission to provide comprehensive and quality care in a multidisciplinary setting.

We schedule our appointments so that each patient receives the right amount of time to be seen by our health professionals and staff. That's why it is very important that you keep your scheduled appointment with us, and arrive on time.

As a courtesy, and to help patients remember their scheduled appointments, Clinic MDCM sends an email reminder 2 days in advance of the appointment time.

If your schedule changes and you cannot keep your appointment, please contact us so we may reschedule you, and accommodate those patients who are waiting for an appointment. As a courtesy to our office as well as to those patients who are waiting to schedule with the health care professional, please give us at least 24 hours notice.

If you do not cancel or reschedule your appointment with at least 24 hours notice, a "no-show" service charge is charged. This "no-show charge" is not reimbursable by RAMQ. You will be billed directly for it. A fee of \$35 will apply to missed appointments with family doctors and a fee of \$65 will apply to missed appointments with specialists.
